

2000 INDEX

If you've been collecting Computeractive, then you'll have a great source of reference material. But finding a particular workshop or product out of all those we've covered can be tricky. Luckily, our annual index is here to help, listing all workshops and products featured during the past year. The numbers after each listing refer to the issue number and then the page number. For example, '62, 24' means issue 62, page 24. You will find issue numbers are printed on the top right corner of the front cover of each Computeractive issue.

If you are missing an issue, you can buy it for £1.95 by calling 01858 438881. To keep your issues safe, binders are available for £5.95 each from 01858 438883.

Index compiled by Jananie Nadarajah
