

2001 index

If you collect Computeractive, you build up a great source of reference material. However, finding something in particular can be difficult so our annual index is here to help, listing all Workshops and products we've featured during the past year - issues 76 to 101, inclusive. We've tweaked this index following feedback from a few readers. The numbers after each listing refer to the issue number and then the page number. For example, '89. 95' means issue 89, page 95.

For copies of back issues and binders to store them, call 01753 681483. For subscriptions, call 01858 438881. All these issues will be available in a searchable, browsable format on Computeractive's fourth annual CD-ROM in March. See our Webstore (www.webstore.computeractive.co.uk) for more information.

Index compiled by Jananie Nadarajah
